

Cabell-Huntington Health Department

Cabell-Huntington Health Department thanks all of our community health partners for their continued diligence in reporting the required reportable infectious diseases. Your role in helping us prevent the spread of disease in our county is very important and we appreciate all your efforts. Quarterly disease summaries will be available online beginning in May 1st at www.cabellhealth.org. Please visit our website for this and other infectious disease information.

If you have any questions concerning any infectious disease please contact us at 523-6483, ext. 267.
